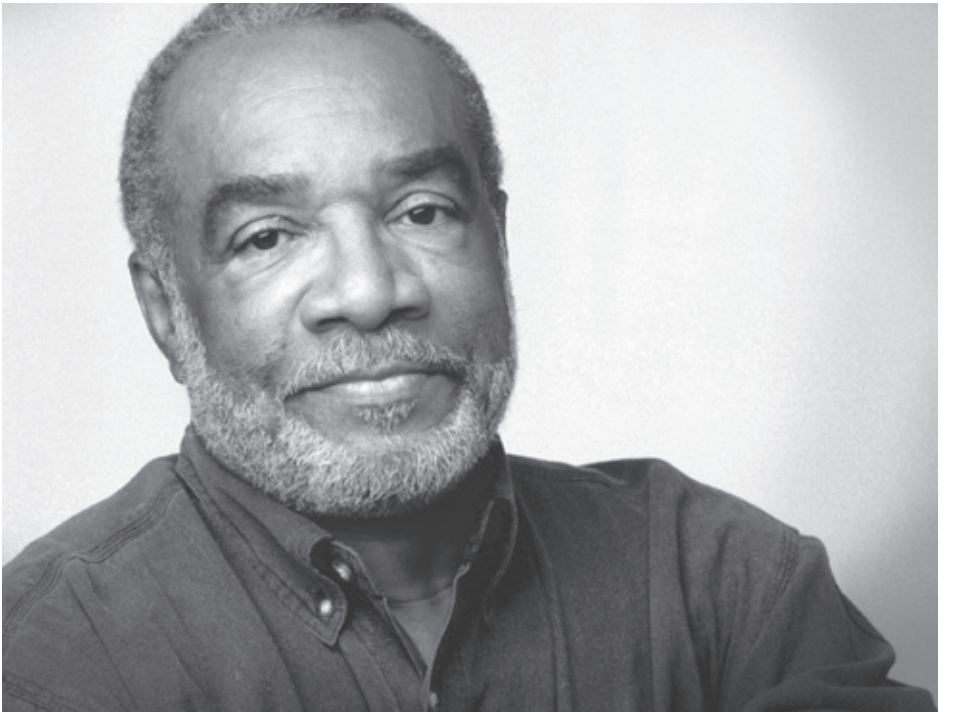
If you can't keep your appointment, please call us.

Telephone: _____ Nurse: _____

Your TB test shows that you have been infected with the germ that causes Tuberculosis or "TB".

You will be taking:

Instructions:



These pills will treat your infection so that you won't get sick with TB.

The pills ***won't work*** unless you take them exactly as instructed.

Medication Chart

You'll need to take your pills for ____ months.

We have a calendar to help you keep track of when you take your pills.

Please put an X in the box for each day that you take your TB medicine.

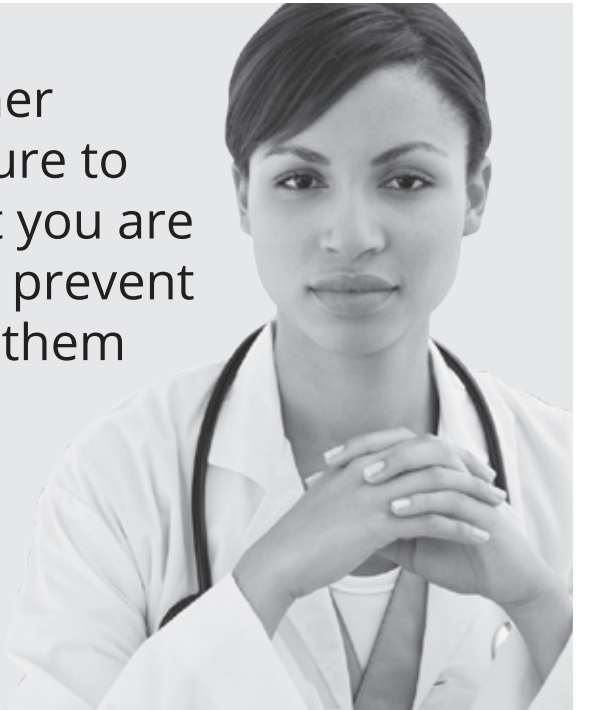
If you see other doctors, be sure to tell them that you are taking pills to prevent TB and show them this record.

Let us know about any other pills you are taking.



Problems with these pills are rare, but they can happen.

If you notice any of these problems, stop taking your pills and call your TB nurse as soon as possible.

- *Loss of appetite*
- *Always feeling tired for no reason*
- *Dark colored urine (the color of coffee or tea)*
- *Yellow eyeballs*
- *Yellow skin*
- *Sick to your stomach*
- *Rash, itching*
- *High fever*
- *Blurred vision*
- *Pain or tingling in hands, feet, or joints*
- *Feeling dizzy or sleepy*
- *Any other problems*

We need to see you often to make sure your pills are working.

It's up to you and your nurse to whip TB!

- *Bring your pill bottle and this booklet with you to all your appointments with your TB nurse.*
- *Take your pills exactly as instructed.*
- *Don't forget to use the calendar to help you keep track of your daily pill dose.*
- *Keep your appointments.*
