RE: Air Quality Registration Permit for Fuel Combustion Operations
Permit Number: 0560-0352

Enclosed is an Air Quality Registration Permit for Fuel Combustion Operations (“Registration Permit”) issued on August 1, 2011. Please note the conditions, emissions limitations, and operational requirements contained within this permit. This permit supersedes any previous construction and/or operating permits that were issued to your facility. Your facility’s coverage under the terms and conditions of this permit shall be effective on January 13, 2016. This letter should be retained with the registration permit.

It is your responsibility to comply with all the requirements of this Registration Permit. The Department may conduct periodic inspections of your facility to determine compliance with the requirements of the Registration Permit. Any violations found during these inspections may result in an enforcement action. Therefore, it is incumbent upon you to ensure you are in compliance with the Registration Permit at all times. It is important for you to read this issued permit carefully and to understand all requirements. If any errors or omissions are found, immediately notify Hetal Patel of my staff, via email at patelhy@dhec.sc.gov, or call (803) 898-3850.

In the event, you disagree with the decision to approve the Registration Permit, or the terms and conditions of the Registration Permit, the enclosed "Guide to Board Review" explains the process for contesting the Department's decision.

Sincerely,

Elizabeth J. Basil
Director, Engineering Services Division
Bureau of Air Quality

Air Quality Registration Permit for Fuel Combustion Operations

UniFirst Corporation – North Charleston

0560-0352

Page 1 of 1

Equipment ID	Equipment Description	Fuels Used	Installation Date	Emission Point ID
B-1	12.6 million BTU/hr Boiler	NG and No. 2 with sulfur content equal to or less than 0.05%	1990	Boiler

EXEMPT SOURCES

Equipment ID	Equipment Description	Installation Date	Basis
D-1	One 3.0 million BTU/hr Natural Gas and Propane fired Dryer	1991	Bureau of Air Quality Permitting Exemption List (December 2015) Section (B)(6)(i), (B)(6)(iv), and SC Regulation 61-62.1 Section II(B)(2)(h)
D-2	One 3.0 million BTU/hr Natural Gas and Propane fired Dryer	1991	Bureau of Air Quality Permitting Exemption List (December 2015) Section (B)(6)(i), (B)(6)(iv), and SC Regulation 61-62.1 Section II(B)(2)(h)
D-3	One 0.375 million BTU/hr Natural Gas and Propane fired Dryer	1991	Bureau of Air Quality Permitting Exemption List (December 2015) Section (B)(6)(i), (B)(6)(iv), and SC Regulation 61-62.1 Section II(B)(2)(h)

ADDITIONAL CONDITIONS

The owner or operator must comply with the conditions of the Registration Permit for Fuel Combustion Operations and any additional conditions listed in this section.

Condition Number	Conditions
1.	This boiler is permitted to burn natural gas and No. 2 fuel oil. However, in accordance with 40 CFR 63.11195(e), the source is not subject to 40 CFR Part 63, National Emission Standards for Hazardous Air Pollutants, Subparts A and JJJJJ – Industrial, Commercial, and Institutional Boilers Area Sources if the gas fired boiler, as defined in 40 CFR 63.11237, burns natural gas as primary fuel and burns fuel oil only during natural gas curtailment, gas supply interruption, startups, or periodic testing on liquid fuel. Periodic testing on liquid fuel shall not exceed a combined total of 48 hours during any calendar year. If the gas fired boiler uses fuel oil outside of natural gas curtailment, gas supply interruption, startups, or periodic testing on liquid fuel as defined in 40 CFR 63.11237, the boiler will be subject to Subpart JJJJJ.
