RE: Air Quality Registration Permit for Crematory  
Permit Number: 0740-0043

Enclosed is an Air Quality Registration Permit for Crematory Operations ("Registration Permit") issued on August 1, 2012. Please note the conditions, emissions limitations, and operational requirements contained within this permit. This permit supersedes any previous construction and/or operating permits that were issued to your facility. Your facility's coverage under the terms and conditions of this permit shall be effective on February 17, 2015. This letter should be retained with the registration permit.

It is your responsibility to comply with all the requirements of this Registration Permit. The Department may conduct periodic inspections of your facility to determine compliance with the requirements of the Registration Permit. Any violations found during these inspections may result in an enforcement action. Therefore, it is incumbent upon you to ensure you are in compliance with the Registration Permit at all times. It is important for you to read this issued permit carefully and to understand all requirements. If any errors or omissions are found, immediately notify Jerisha Dukes of my staff, via email at [dukesjs@dhec.sc.gov](mailto:dukesjs@dhec.sc.gov), or call (803) 898-4292.

In the event, you disagree with the decision to approve the Registration Permit, or the terms and conditions of the Registration Permit, the enclosed "Guide to Board Review" explains the process for contesting the Department's decision.

Sincerely,

Elizabeth J. Basil  
Director, Engineering Services Division  
Bureau of Air Quality
