RE: Air Quality Registration Permit for Cotton Ginning Operations  
Permit Number: 1540-0009

Dear Mr. Edwards:

Enclosed is an Air Quality Registration Permit for Cotton Ginning Operations issued on September 1, 2011. Issuance of this permit constitutes approval for St. Charles Gin Company to operate a 1D2D cyclone at its cotton ginning operation. Please note the conditions, emissions limitations, and operational requirements contained within this permit.

This permit will be valid through August 31, 2021 and supersedes any previous construction and/or operating permits that were issued to your facility. Your facility's coverage under the terms and conditions of this permit shall be effective on May 7, 2013. This letter should be retained with the registration permit.

The Department has developed an Excel spreadsheet for cotton ginning operations that may help you in maintaining end-of-season emissions reporting which can be found at the following web site address: [http://www.scdhec.gov/environment/baq/Permitting/RegistrationPermits/cotton\\_ginning.asp](http://www.scdhec.gov/environment/baq/Permitting/RegistrationPermits/cotton_ginning.asp)

It is important for you and/or an authorized representative responsible for the overall operation of this facility to read this issued permit carefully and to understand all requirements. If any errors or omissions are discovered, please notify Jerisha Dukes of my staff, via e-mail at [dukesjs@dhec.sc.gov](mailto:dukesjs@dhec.sc.gov), or call (803) 898-4292 immediately.

Pursuant to the South Carolina Administrative Procedures Act, any Department decision involving the issuance, denial, suspension, or revocation of a permit or certification may be appealed by the applicant, permittee, licensee, or affected person. Please see the enclosed "Guide to Board Review" for guidelines on filing an appeal.

Sincerely,

Elizabeth J. Basil  
Director, Engineering Services Division  
Bureau of Air Quality
