RE: Air Quality Registration Permit for Wood Working Operations
Permit Number: 2060-0499

Dear Mr.Thornton:

The Department issued on October 15, 2013 a Registration Permit for Wood Working Operation ("Registration Permit"). Please note the emissions limitations and operational requirements contained within this permit. Your facility's coverage under the terms and conditions of this permit shall be effective on August 7, 2014. This letter should be retained with the registration permit.

A copy of the Registration Permit may be downloaded from the following web address:

<http://www.scdhec.gov/environment/docs/ww-REG-PermitBody.pdf>. Alternatively, you may request a copy of the Registration Permit by contacting us at (803) 898-4113.

It is your responsibility to comply with all the requirements of this Registration Permit. The Department may conduct periodic inspections of your facility to determine compliance with the requirements of the Registration Permit. Any violations found during these inspections may result in an enforcement action. Therefore, it is incumbent upon you to ensure you are in compliance with the Registration Permit at all times.

It is important for you to read this issued permit carefully and to understand all requirements. If any errors or omissions are discovered, please notify **Mareesa Singleton** of my staff, via e-mail at singlemj@dhec.sc.gov, or call (803) 898-4113 immediately.

In the event, you disagree with the decision to approve the Registration Permit, or the terms and conditions of the Registration Permit, the enclosed "Guide to Board Review" explains the process for contesting the Department's decision.

Sincerely,

Elizabeth J. Basil
Director, Engineering Services Division
Bureau of Air Quality
