

2013 Environmental Assistance Conference Agenda

8:00 – 9:00	Registration and Light Breakfast	
9:00 – 9:15	<p>★Welcome★ <i>Elizabeth Dieck</i> Director of Environmental Affairs SC Department of Health and Environmental Control</p>	
9:15 – 10:15	<p>★Preparing for a DHEC Inspection★ <i>Jennifer Hughes, Bureau of Environmental Health Services</i></p> <p>This session will highlight some organizational changes within the Bureau of Environmental Health Services as well as information about DHEC inspections. This presentation will offer compliance assistance information, discuss best management practices, recordkeeping, waste management and will include examples of violations.</p>	
10:15 – 10:30	BREAK	
10:30 – 11:30	<p>★Enforcement Panel Discussion★ <i>Moderator - Keith Frost, Bureau of Air Quality; Randy Stewart, Bureau of Air Quality; LaTonya Derrick, Bureau of Land and Waste Management; Karen Ramos, Bureau of Water; Brian Wisnewski, Bureau of Water</i></p> <p>This session will take the violations discussed in the previous session and walk you through the enforcement process from beginning to each possible outcome. This panel will also allow you to ask specific questions of the enforcement managers.</p>	
11:30 – 11:45	<p>★SC Environmental Excellence Program★ <i>Russell Revell, Chair, SCEEP Advisory Committee</i></p> <p>This brief session will provide information on the SC Environmental Excellence Program (SCEEP) including how to apply and member benefits.</p>	
11:45 – 12:45	LUNCH	
CONCURRENT SESSIONS		
	BALLROOM I	BALLROOM II
12:45 – 1:30	<p>★Hazardous Waste Overview/Q&A★ <i>Bobby Lee, Bureau of Land and Waste Management</i></p> <p>This session will assist the regulated community in better understanding your regulatory obligations (i.e., waste identification, generator status, management of waste) and what to expect from a hazardous waste inspection.</p>	<p>★Air Permitting Update★ <i>Alyson Hayes & Phyllis Copeland, Bureau of Air Quality</i></p> <p>This session will cover the permitting process from application to issuance and resources available to guide you through the process. Updates will also cover additions to the exemption list, new registration/general permits and the addition of operational flexibility conditions to permits.</p>
1:35 – 2:15	<p>★Compliance with the Industrial Stormwater Permit★ <i>Brian Wisnewski, Bureau of Water</i></p> <p>This session will be a general discussion of compliance topics under the industrial</p>	<p>★Boiler MACT★ <i>Mary Peyton Wall, Bureau of Air Quality</i></p> <p>This session will focus on the major and area source boiler rules which impact new and existing</p>

2013 Environmental Assistance Conference Agenda

	<p>stormwater general permit. This will include information on the electronic discharge monitoring report (DMR) and the stormwater DMR.</p>	<p>industrial, commercial, and institutional boilers as well as process heaters. Boilers burn fuels, including natural gas, fuel oil, coal, biomass (e.g., wood), refinery gas, or other gas to produce steam. The steam is used to produce electricity or provide heat. Process heaters heat raw or intermediate materials during an industrial process. Examples of impacted facilities include: commercial (e.g. laundries, apartments, hotels), institutional (e.g. schools, churches, medical centers, municipal buildings), or industrial (e.g. manufacturing, refining, processing, mining) facilities.</p>
2:15 – 2:30	BREAK	
2:30 – 3:15	<p>★ Impaired Waters to Stormwater Permits ★ <i>Wade Cantrell, Jeannie Eidson, Jill Stewart, Bureau of Water</i></p> <p>Ever wonder why facilities covered under the Industrial Stormwater General Permit have to monitor for bacteria and other pollutants or why construction sites have to implement more expansive buffers? This presentation will give you the answer! Staff from the Bureau of Water will provide insight into how the Department determines what water bodies are impaired, how a TMDL is developed, how to determine if your site discharges to an impaired water body, and finally what must permittees do to address the impairment.</p>	<p>★ Asbestos ★ <i>Robin Mack, Bureau of Air Quality</i></p> <p>This session will provide an overview of state and federal regulatory requirements pertaining to renovation and demolition activities. Topics of discussion include: definition of renovation and demolition, how to determine if a project is regulated, permitting requirements, group licensing, temporary storage containment licenses, and quarterly reporting.</p>
3:20 – 4:00	<p>★ Permit Central Discussion ★ <i>Shelly Wilson, Environmental Quality Control</i></p> <p>DHEC's Permit Central, a collection of new customer service tools, was launched by the Governor and DHEC Director in early 2013. Hear about recent Permit Central activities and how Permit Central can be of help to you.</p> <hr/> <p>★ Reducing your Environmental Footprint ★ <i>Stacey Washington, Bureau of Land and Waste Management</i></p> <p>Learn about non-regulatory resources available from DHEC and industry examples that promote environmental stewardship and compliance.</p>	<p>★ Ozone/Nonattainment ★ <i>Robert Brown, Bureau of Air Quality</i></p> <p>This session will provide an update on South Carolina's status with the two ambient standards of concern, Ozone and PM2.5. Information covered will include the designation process, the impacts on air permitting and voluntary actions that can support our efforts.</p>
