

Description: South Carolina Workplace Injury/Illness and Lead Exposure Data

Publish Date: **07/09/2014**

---

**Abstract:**

Health Data, SC Aggregated Counts of Workplace Injury/Illness & Lead Exposure data by Age including total Ethnicity, Race, and Gender: This data set contains aggregated counts of the number of workplace injury/illness & lead exposure by injury/illness type and lead exposure concentration including Age, and total Ethnicity, Race and Gender in the state of South Carolina. The specific workplace injury/illness for which aggregated counts are provided include: work-related hospitalizations, work-related burn hospitalizations, pneumoconiosis hospitalizations and work-related low back disorder hospitalizations. It also contains the count of workplace injury/illness and lead exposure by Age and total Ethnicity, Race and Gender in the state of South Carolina for the aggregated data rate calculations.

---

**Purpose:**

To provide the public, EPHT grantees, researchers, and other public health professionals with information pertaining to workplace injury/illness and lead exposure data in the state of South Carolina.

---

**Supplemental Information:**

None

---

**Notes:**

Any user of this data must have reviewed and understand the metadata content before attempting to interpret or use the workplace injury/illness and lead exposure data. This is a public dataset and is not for commercial purposes. Any use of this data should contain proper data source acknowledgement: SC Office of Research and Statistics and ABLES Program, EPHT, PHSIS, SC DHEC.
