** DHEC will not release medical exemption information from schools with fewer than 25 students, as the potential for identifying an individual student from that information is substantially increased. We do not disclose medical information that could lead to the identification of an individual. The Family Privacy Protection Act also charges DHEC with protecting personal medical information from public disclosure.*

Disclaimer:

Data is submitted by schools 45 days after the beginning of the school year, as required by state law. It may be accurate on the day submitted only, as enrollment and exemption status may change throughout the school year.

Exemption data does not include whether the exemption was for one or more vaccines, nor is it vaccine specific. (For example, a child may have received one or more vaccines, but not the complete series recommended by CDC.)
