RE: Palmetto Belton Tank Farm and Pump Station Air Quality Permit

Dear Ms. Basil:

AECOM Technical Services, Inc. (AECOM) was retained by Palmetto Pipe Line Company LLC, a Kinder Morgan company, for environmental permitting services for the proposed Palmetto Belton Tank Farm and Pump Station. We are requesting that our Air Quality Permit submitted on February 26, 2016 be placed on-hold. We believe that it is in the public's best interest to coordinate the permit process for this and any other pending permit actions. This approach offers the public a broad view of the project and, we believe, best meets the intent of the public notice process.

Please review our request and should you have any follow up questions or need further clarifications on our request please contact me at your convenience at 713.807.6538.
Thank you for your time.

Sincerely,

Cindi Sedberry
Project Manager
