INSTRUCTIONS FOR COMPLETING THE PROJECT QUESTIONNAIRE

PURPOSE. The purpose of this questionnaire, modified to conform to DHEC's new Integrated Priority Ranking System (IPRS), is to gather information concerning potential projects eligible for funding from the Clean Water State Revolving Loan Fund (CWSRF). The CWSRF was established by the Clean Water Act to provide low-interest loans for building/upgrading wastewater treatment works. Section 319 of the Act provided for nonpoint source management activities and projects. This information will be used to develop a priority list of projects that will be eligible for assistance from the CWSRF.

ITEM BY ITEM INSTRUCTIONS:

- 1. Sponsor Information:** A project sponsor is a county, municipality, special purpose district, commissioners of public works, or any other public agency of the state which may own or operate a project, and includes any combination of two or more of these entities acting jointly to construct, own or operate a project
- 2. Address:** Specify the name and address of the project's sponsor.
- 3. Contact:** Give the name, phone number, and e-mail address of a person that may be contacted concerning the proposed project.
- 4. County:** The county in which the proposed project is located.
- 5. Project Title:** The working title for this project.
- 6. Project Description:** Indicate the primary components of the project (e.g. size and length of sewer lines, size of treatment plant, type of treatment, elements of best management practices, etc.)
- 7. Describe in specific detail how the project will improve water quality in the project area:**
**Please explain project scope completely as possible. Attach additional pages if necessary. The project explanation you give may weigh heavily toward project priority ranking.*
Examples: *Upgrade of the City's wastewater treatment facility to the more stringent NPDES limits for BOD and ammonia will eliminate the violations of those parameters in the facility's current discharge to Moon River...*
Interconnection and elimination of the package plant serving the Graymont Community will eliminate NPDES-violating discharges to Gray Creek...
Best Management Practices (BMPs) to be implemented in the Black Road area of Twin City will eliminate siltation, erosion, and stormwater-transported contaminants, which are at present degrading the water quality of Lazy Creek...
New interceptor and collection system will interconnect the Boomtown Community, 75% of whose septic tanks are failing and contaminating Running Creek...
- 8. NPDES or ND#:** NPDES or ND number of any existing wastewater treatment facilities, which are to be eliminated by this project.
- 9 – 10.** Fill out all appropriate sections.
- 11.** An estimated total cost of the project.
- 12.** The estimated SRF loan amount (may be different from estimated total cost of the project).
- 13.** The service population and the population affected by the project.
- 14. Please date the questionnaire and submit it to:** *State Revolving Fund Section • Bureau of Water •*
2600 Bull Street • Columbia SC 29201 or E-Mail to pricedc@dhec.sc.gov

DHEC REVIEW AND FILING. The Bureau of Water will use the questionnaire to develop the State's Priority List of CWSRF Projects. The questionnaire will be retained on file with the Bureau of Water for four years.
