Generator's Knowledge Certification

Company:

Date: _____

Address:

Waste Stream Identification:

Description: _____

This is to certify that (**Name of Company/Facility/Entity**) personnel have reviewed the material(s) and process(es) used in the manufacturing and/or related process(es) that generate(s) the above waste stream. This review was undertaken in accordance with that presented in 40 CFR 262.11(c)(2). In addition, the potential effect(s) of this waste material on human health and the environment has/have been considered.

This document is to certify that, to the best of our knowledge, the (**Land Disposal, Remediation, Land Application, Bioremediation, Contamination, or other action**) represent(s) no particular adverse affect(s) on human health and/or the environment. This document is to further certify that testing to comply with the provision(s) of South Carolina (**Regulation applicable and/or Rationale for Analyses**) for this waste stream will be limited to the following parameter(s):

(List or name the parameter(s) to be analyzed. Use as much space as needed to describe parameter(s).)

Other parameters, potentially required by the (**Regulation applicable and/or Rationale for Analyses**), are believed to be non-applicable. This certification is made to the best of our knowledge and understanding. By signing below, I hereby certify that I am authorized by this Company/Facility /Entity to make this determination.
