PUBLIC NOTICE

Notice #: 01195-1 Permit #: 01195

Date: October 27, 2009

This notice is to inform the public that the S. C. Department of Health and Environmental Control (DHEC) is taking public comments on a Corrective Action Plan (CAP). This CAP addresses the cleanup of soil and groundwater contamination at the facility listed below. The contamination was caused by petroleum products that were released from the underground storage tank system at this facility. Based on current data, the contamination does not pose a threat to human health or the environment and the petroleum release is eligible for a Conditional No Further Action (CNFA).

FACILITY: Pantry #3354, 5255 Rivers Avenue, Charleston, SC

APPLICANT: Dutton Storage, LLC, P.O. Box 60447, North Charleston, SC

SUMMARY OF CAP: Petroleum and petroleum byproducts naturally break down over time through chemical, physical, and biological processes. These processes are called natural attenuation. Periodic monitoring was conducted by Dutton Storage and/or DHEC to verify natural attenuation and to ensure that the contamination remained below levels of concern.

PUBLIC COMMENT PERIOD DEADLINE: The **deadline** for submitting written comments is **November 10, 2009**. Any interested person(s) may submit written comments concerning the cleanup to DHEC's Project Manager listed below. Please bring this notice to the attention of persons whom you know will be interested in this matter. Where there is a significant degree of public interest, DHEC will hold a public hearing.
