

# Public Notice of Proposed Action

**HSL, Inc./Easley Site Trust**  
**183 Rolling Hills Circle, Easley, SC**  
SCD 0065 053 217

The South Carolina Department of Health and Environmental Control (SCDHEC) gives notice of the preparation of a DRAFT POSTCLOSURE CARE HAZARDOUS WASTE PERMIT for the HSL, Inc./Easley Site Trust facility located in Easley, South Carolina, having the assigned facility number SCD 065 053 217. This draft permit has been prepared under the authority of Sections 44-56-10, et seq., of the 1976 South Carolina Code of Laws, as amended, the South Carolina Hazardous Waste Management Regulations (R.61-79), the Resource Conservation and Recovery Act (RCRA), as amended, and the Hazardous and Solid Waste Amendments of 1984 (HSWA). The permit, if issued, will be a RCRA permit for the postclosure care of two closed hazardous waste management units and remediation of solid waste management units.

The conditions of this draft permit require maintenance of a groundwater monitoring and treatment system for any release of hazardous constituents from the hazardous waste management unit. The draft permit also contains conditions for identification, assessment, and, if necessary, corrective action to protect human health and the environment from releases of hazardous waste constituents from any waste management units at the site. SCDHEC has made a preliminary determination that the proposed permit will comply with applicable State and Federal regulations and is protective of human health and the environment.

Copies of the draft permit, the fact sheet, and the permit application are available for review during normal business hours, 8:30 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the following locations starting September 8, 2009:
