(See DHEC BCN Provider List.) Referring providers may include physician assistants, nurse practitioners and/or nurse midwives who are practicing in an extended role within an approved written protocol with a physician for the initial breast cancer screening services. Referred women must be between the **ages of 40-64**, have no insurance (including Medicaid and Medicare) or can provide documentation that their insurance only covers in-patient hospitalization.
2. **The patient must have a written order stating she is associated with the Best Chance Network from a provider who has a current contract with DHEC.** (See DHEC BCN Provider List.) **The patient must have already received initial screening services (clinical breast & pelvic exam) from a current DHEC BCN provider before being referred to you. Services should not be provided without the written order.**

#### **B. Services:** The Contractor will provide mammography, breast ultrasound and breast cyst aspiration (BCA) according to the Fee for Service Schedule.

1. Services will include screening (two views each breast) and diagnostic mammograms (magnification or additional views), breast ultrasound and breast biopsy services, and reporting of radiological findings to referring provider. See appropriate protocols contained in the BCN Protocols Manual.

3. Provide patient education including BCN guidelines for mammographic screening. This education should include breast self-examination instruction.
4. The Contractor **will not** send annual reminder notices to BCN patients for mammography as BCN patients are required to be re-screened prior to receiving annual mammograms.

#### **C. Staff:** Have a medical director who is a board certified radiologist to ensure that staff are competent and proficient in mammography, ultrasound, breast biopsy and breast cyst aspiration procedures and to ensure the professional credentials are current.

Payment on claim forms received without this complete information will be denied.
  3. DHEC/BCN will assign a pre-authorization code to BCN patients' initial screening (referring) providers. This authorization code will be used by DHEC/BCN in determining appropriateness of payment for radiology services. Payment may be delayed or denied on radiology claims from your facility on patients for whom an authorization code was not assigned. Contractor is not required to include an authorization code on claim forms submitted to DHEC/BCN.
  4. Reimbursement for digitization of film radiographic images with computer analysis (CAD) is not covered under this contract. A BCN patient may not be billed for CAD.

  6. Payment for services rendered by laboratories not under contract with BCN or for services not listed on Allowable Laboratory Services will be the responsibility of the Contractor unless the patient has agreed to pay for these services and has documentation of the same.
