

BUREAU OF LABORATORIES SERVICES GUIDE

INDEX

<i>Acanthamoeba</i> culture, See Amoeba Culture.....	II-1
Accreditation	I-2
Acid Fast Bacilli culture (AFB), See Mycobacterial culture.....	II-27
Acylcarnitines Profile, See Newborn Screening.....	II-29
Address of Bureau of Laboratories.....	I-1
Adenovirus culture	II-1
Aerobe referred for identification (See Bacterial Isolate, Referred for Identification)	II-2
AIDS Testing, See HIV	II-21
Alcohol screen, See Drugs of Abuse screen	II-10
Amino Acid Profile, See Newborn Screening	II-29
Amoebae culture	II-1
Amphetamines screen, See Drugs of Abuse	II-10
Arbovirus serology	II-2
Bacterial isolate referred for ID, See aerobe referred for ID.....	II-2
Barbiturate screen, See Drugs of Abuse	II-10
Benzoylcocaine, See Cocaine & Marijuana screen	II-7
Billing procedure	V-2
Billing numbers	III-5
Biotinidase, See Newborn Screening	II-29
Blood Lead, See Lead Analysis, blood	II-23
Collection procedure.....	III-9
Blood smears for blood parasites, See Malaria smear	II-25
<i>Bordetella pertussis</i> culture.....	II-3
Collection procedure	III-24
<i>Bordetella pertussis</i> DNA by PCR.....	II-3
Collection procedure	III-24
Botulism	II-4
<i>Campylobacter</i> , See Enteric pathogens culture	II-11
Capillary blood collection for Blood lead, capillary microtainer.....	III-9
Capillary blood, collection for Newborn screening, Heel-stick	III-7
CBC	II-4
CD4, See Lymphocyte Subset	II-25
CDC, Specimens Referred to	I-3
Certification of laboratory	I-2
Chagas disease, See Parasite Serology	II-33
Chain-of-Custody protocol for Drugs	III-36
Chemistry panels for DHEC clinics	II-6
<i>Chlamydia</i> antigen detection by Nucleic acid Probe	II-5
Collection procedure for Gen-Probe Aptima Combo 2 procedure (swab and/or Urine)	III-33
CMV, See Cytomegalovirus culture or serology	II-9
Cocaine & marijuana screen, urine	II-7
Chain of custody Collection procedure	III-36
Complete Blood Count, See CBC	II-4
Congenital Adrenal Hyperplasia, See Newborn Screening	II-29
<i>Corynebacterium Diphtheria</i> Culture and ID.....	II-8
County codes	III-4

Coxsackie A & B virus culture, See Enterovirus culture	II-11
<i>Cryptosporidium</i> stain	II-8
Collection procedures, Blood	III-6
Collection procedures, Culture	III-12
Collection procedures, Other	III-26
<i>Cyclospora</i>	II-8
Cysticercosis, See Parasite serology	II-33
Cystic Fibrosis, See Newborn Screening	II-29
Cytomegalovirus culture	II-9
Dairy products examinations	II-9
DHEC Program numbers	III-5
Diphtheria, See <i>Corynebacterium diphtheria</i>	II-8
Collection procedure (throat culture)	III-15
Disease reporting	I-7
Drugs of Abuse screen, urine	II-10
Chain-of-custody collection protocol	III-36
E.coli 0157 culture, See Enteric pathogens culture	II-11
Eastern Equine Encephalitis, See Arbovirus Serology	II-2
ECHO virus, See Enterovirus culture	II-11
<i>Echinococcus</i> , See parasite serology	II-33
Enteric pathogens culture	II-11
Collection procedure	III-12
Enterovirus culture	II-11
Collection procedure for stool culture	III-19
Collection procedure for throat culture	III-20
Environmental Lead, See Lead, environmental	II-23
Erlichiosis	II-12
Filariasis, See parasite serology	II-33
Food-borne illness (Food poisoning).....	II-12
Galactosemia, See Newborn Screening	II-29
Gen-Probe Aptima Combo 2 for detection for <i>Chlamydia/GC</i> .	
<i>Chlamydia</i> detection.....	II-5
Gonococcal detection	II-12
Collection procedure	III-33
German measles, See Rubella serology	II-36
Giardia, See Trichrome stain	II-40
Gonorrhea (GC) Antigen detection (Gen-Probe)	II-12
Gonorrhea Culture	II-13
Collection procedure	III-13
Hantavirus Serology- IgG/IgM	II-14
Heavy Metal analysis- call laboratory except for lead	II-14
Hematology, See CBC	II-4
Hemoglobin (Hb) Electrophoresis	II-15
Hemolytic Anemia, See Hemoglobin Electrophoresis	II-15
Hepatitis A Serology	II-15
Hepatitis B Serology	II-16
Hepatitis C Serology, Total Antibody	II-18
Hepatitis C, Qualitation (RIBA).....	II-19
Hepatitis C Quantitation (RNA)	II-20
Collection procedure	III-11

<i>Herpes simplex</i> culture	II-20
Collection procedure.....	III-22
HIV-1 PCR Quantitative (RNA)	II-21
HIV-1/HIV -2 Serology	II-21
Hours of business	I-1
Hypothyroidism, See Newborn screening	II-29
Influenza virus culture	II-22
Laboratory address and business hours	I-1
Laboratory Organization and contact persons	I-2
Lead analysis, Blood	II-23
Lead analysis, Environmental	II-23
<i>Legionella</i> culture	II-23
<i>Legionella</i> FA	II-24
Leishmaniasis, See parasite serology	II-33
Leptospirosis	II-24
Lymphocyte subset	II-25
Mailing address for Bureau of Laboratories	I-1
Malaria, See parasite serology	II-33
Malarial smear	II-25
MCADD See Newborn screening	II-29
Measles (Rubella) serology, See Rubella serology	II-36
Measles (Rubeola) serology, See Rubeola serology	II-36
MHA-TP, SeeTP-PA.....	II-39
Mites, See scabies.....	II-37
Mumps virus culture.....	II-26
Collection procedure.....	III-21
Mumps virus serology	II-26
Murine Typhus serology, See Rickettsial serology	II-35
Mycobacteria	
Culture & ID	II-27
Collection procedures	III-16
Referred specimen for ID	II-28
Susceptibility testing	II-28
Mycoplasma pneumoniae serology IgM	II-29
Naegleria culture, See Amoebae culture	II-1
<i>Neisseria gonorrhoeae</i> , See Gonorrhea culture	II-13
Collection procedure	III-13
Newborn screening	II-29
Collection procedure, Heel-stick	III-7
Norovirus detection	II-32
Ordering Test Request forms	III-2
Ordering supplies and collection kits	III-1
Malaria Smear	II-25
Pap Test, Liquid-based Monolayer (SurePath).....	II-32
Collection procedure.....	III-24
Parasite serology	II-33
Parvovirus IgG/IgM serology	II-33
Phenylketonuria (PKU), See newborn screening	II-29
PKU, See newborn screening	II-29
Poliomyelitis, See enterovirus culture	II-11

Premarital testing for out of state licenses	I-4, II-34
Rabies examination	II-34
Remailing results	I-9
Repeat testing, billing policy	V-2
Respiratory culture, Viral	II-35
Collection procedure	III-22
Results reports	I-6
Rickettsial serology, RMSF and MT	II-35
Rocky Mountain Spotted Fever serology (RMSF), See Rickettsial serology	II-35
RPR, See Syphilis Serology	II-39
Rubella Serology	II-36
Rubeola Serology, See measles serology	II-36
Salmonella, See Enteric pathogens culture.....	II-11
Scabies	II-37
Collection procedure, skin scrapings	III-35
Schistosome analysis	II-38
Schistosomiasis serology, See parasite serology	II-33
Sender number, obtaining	III-4
Shigella, See Enteric pathogens culture	II-11
Shipping specimens to lab	
Definitions	IV-4
Shipping Diagnostic specimens via U.S. Mail and State courier	
Clinical specimens	IV-6
Microscope slides	IV-2
Blood spots for newborn screening and HIV	IV-1
Shipping Diagnostic specimens and Infectious substances via a commercial carrier	IV-6
Shipping reminders.....	IV-9
Shipping forms	IV-13
Shipping containers, obtaining	III-1
Sickle Cell, See Hemoglobin Electrophoresis and Newborn Screening	II-15, II-29
Skin scrapings for Scabies.....	II-37
Specimen rejection criteria	I-5
Sporotrichosis serology	II-38
St. Louis Equine Encephalitis, See Arbovirus serology	II-2
<i>Staphylococcus</i> , See enteric pathogens culture	II-11
Stool culture for enteric pathogens, See Enteric pathogens culture	II-11
Collection Procedure	III-12
Supplies, obtaining	III-1
Susceptibility Testing for mycobacteria, See Mycobacteria, susceptibility	II-28
Syphilis serology Screen (RPR)	II-39
T4 lymphocytes, See Lymphocyte subset	II-25
TB culture, See Mycobacteria, culture & ID	II-27
Testing policies.....	I-3
Test request forms, instructions for completing	III-3
Test request forms, ordering	III-2
Tetrahydrocannabinol (THC) (Marijuana)	
See Cocaine & Marijuana screen	II-7
See Drugs of Abuse screen.....	II-10
Toxocara, See parasite serology	II-33
Toxoplasma Serology, See parasite serology.....	II-33

TP-PA.....	II-39
Treponemal antibody serology, See TP-PA	II-39
Trichinosis, See parasite serology	II-33
Tuberculosis culture, See Mycobacteria, culture & ID	II-27
Tularemia	II-40
Urinalysis	II-40
Urine Drug analysis, See Drugs of Abuse, urine	II-10
Varicella virus culture	II-41
Varicella serology	II-41
Venipuncture procedure	III-6
<i>Vibrio</i> , See Enteric pathogens culture	II-11
Viral culture, routine, See specific groups or viruses	
Viral isolate for ID	II-42
Viral Load, Hepatitis C- see Hepatitis PCR Quantitation (RNA)	II-20
Viral Load- HIV, See HIV-1 PCR Quantitative (RNA).....	II-21
Visceral Larva Migrans, See parasite serology	II-33
West Nile Virus Serology.....	II-42
Western Equine Encephalitis, See arbovirus serology	II-2
Whooping Cough, See <i>Bordetella pertussis</i>	II-3
<i>Yersinia</i> , See Enteric pathogens culture	II-11
