<u>Previous Orders:</u> None

<u>Permit/ID Number</u>: SCR 000 767 814; 2060-0410

<u>Violations Cited</u>: South Carolina Hazardous Waste Management Act §44-56-130(2); South Carolina Hazardous Waste Management Regulation 61-79.273.33(d)(1); R.61-79.273.34(e); R.61-79.263.12; and, R.61-79.263.21(a)(1); and 24A S.C. Code Ann. Regs. 61-62.1, Section II.

Summary: Cleanlites Recycling South, LLC d.b.a. Cleanlites Recycling, Inc. (Respondent), located in Spartanburg, South Carolina, recycles fluorescent and high intensity discharge lamps and is a large quantity handler of universal waste and hazardous waste transporter. The Respondent violated the Hazardous Waste Management Regulations at its 195 Ben Abi Road location as follows: failure to contain any lamp in containers or packages that are closed, structurally sound, adequate to prevent breakage, compatible with the contents of the lamps, and lacking evidence of leakage, spillage or damage; failure to label or mark clearly each lamp or its container with one of the following phrases: "Universal Waste - Lamp(s)," or "Waste Lamp(s)," or "Used Lamp(s);" failure to store manifested shipments of hazardous waste for a period of 10 days or less; failure to deliver the entire quantity of hazardous waste which it has accepted from a generator to the designated facility listed on the manifest. On November 29, 2004, the Department issued Air Quality Operating Permit 2060-0410 (Operating Permit) to the Respondent. The Respondent violated its Operating Permit at 100 Fine Road as follows: failure to ensure that there was no release of mercury prior to entry into its recycling recovery process during an incident on July 19, 2011; and, failure to maintain and operate its sources in a manner consistent with good air pollution control practices for minimizing emissions during incidents on July 14 and 19, 2011.

Action: The Respondent has agreed to: ensure that containers of universal waste lamps are managed in accordance with the regulations; ensure that manifested shipments of hazardous waste are stored at a transfer facility for a period of ten (10) days or less; ensure that the entire quantity of hazardous waste accepted from a generator is delivered to the destination facility as manifested; ensure that there are no releases of mercury prior to entry into the recovery process and after the recovery process; to the extent practicable, maintain and operate any source including associated air pollution control equipment in a manner consistent with good air pollution control practices for minimizing emissions; and, pay to a civil penalty in the amount of ten thousand dollars (\$10,000.00). Five thousand dollars (\$5,000.00) of the penalty amount has been assessed as a result of hazardous waste violations and five thousand dollars (\$5,000.00) of the penalty amount has been assessed as a result of air quality violations.
