RE: Notice of Permit Coverage  
CAROLINA CONCRETE COMPANY NEWBERRY PLANT  
Permit Number: 1780-0025

Dear Mark Hartsell:

The Department has approved your request for coverage under the Bureau of Air Quality General State Operating Permit for Concrete Plants ("General Permit") for the above referenced facility. This approval is contingent on the terms and conditions listed in the General Permit. The General Permit has an issue date of June 28, 2013, and your facility's coverage under the terms and conditions of this permit begins on July 5, 2013. This Notice Letter is to be retained with the General Permit and the attachments.

A copy of the General Permit and your facility attachments may be downloaded at the following address by clicking on your facility's name: <http://www.scdhec.gov/Air-GeneralConcretePermit>. You may also request a copy of the General Permit and your facility attachments by contacting us at (803) 898-4292.

It is your responsibility to comply with all the requirements of this General Permit. The Department may conduct periodic inspections of your facility to determine compliance with the requirements of the General Permit. Any violations found during these inspections may result in an enforcement action. Therefore, it is incumbent upon you to ensure you are in compliance with the General Permit at all times. It is important for you to read this issued permit carefully and to understand all requirements. If any errors or emissions are found, immediately notify Jerisha Dukes of my staff, via email at [dukesjs@dhec.sc.gov](mailto:dukesjs@dhec.sc.gov), or call (803) 898-4292.

If your facility no longer requires this permit, please submit DHEC Form D-2374 ("Permit Cancellation / Temporary Closure") to cancel your coverage under the General Permit. If coverage is not cancelled, you are responsible for all annual General Permit fees.

In the event, you disagree with the decision to approve the General Permit, or the terms and conditions of the General Permit, the enclosed "Guide to Board Review" explains the process for contesting the Department's decision.

Sincerely,

Elizabeth J. Basil  
Director, Engineering Services Division  
Bureau of Air Quality
