

# THE RECYCLING A★BIN★GERS

## THE BULK

Are large or odd-sized plastic containers accepted?

## SPY-EYE

Look for the right kinds of paper to recycle like newspaper and copy paper. Paper towels and tissue don't belong in the bin.

No two recycling programs are the same. Most collection centers and curbside services accept different things.

**Be a recycling superhero!  
Learn to recycle right!**

## RECYCLE MJOIR

... err more, but do it right! Does your program accept plastic bottles with caps on, or should they be removed?

## GLASS KIDDO

Glass is tricky. It is accepted in some areas, but not in others. Check with your local program.

## IRON CAN

Well, he's really steel. Most centers accept steel soup cans with scrap metal. Double check before you put them in the bin.

## CAPTAIN AMERI-CAN

Aluminum cans are almost universally accepted, but make sure to empty and rinse them thoroughly.
