Division of Mining and Solid Waste Management

RE: Notice of Approval to Modify a Mine Operating Permit
Permit I-000424, Anderson Quarry, Anderson County

South Carolina's Department of Health and Environmental Control (DHEC) has completed the review of information submitted for the mine operating permit modification for Anderson Quarry, requested by Heidelberg Materials Southeast Agg., LLC (Operator). This review process included information submitted by the Operator and comments from governmental agencies and the interested public.

You are receiving this notice because you have indicated that you would like additional information on DHEC's permitting process for Anderson Quarry. Pursuant to the S.C. Mining Act, DHEC has approved the permit modification. Please visit the website for Anderson Quarry for additional information, including a Summary Response to Comments, which addresses the comments and concerns DHEC received over the course of the technical review of the application. This information can be found at:

<https://scdhec.gov/anderson-quarry>

Any affected party has the right to request a final review of this permit decision. This request must be made in writing to the Clerk of the DHEC Board. Procedures for requesting this review can be found at www.scdhec.gov/boardreview. Should there be any questions or if DHEC may be of further assistance, please do not hesitate to contact the project manager, Sarah Harris, at 803-898-3887 or by e-mail at harrissj@dhec.sc.gov.
