Phone: 803-434-3533
Fax: 803-434-3094

Brief description of the services provided: The Prisma Health Children's Hospital in the Midlands pediatric hematology/oncology team treats approximately 500 children with sickle cell disease. Some children require chronic blood transfusions at Children's Hospital, which reduces the number of sickle cells in the blood and helps prevent strokes.

Prisma Health Children's Hospital in the Midlands provides outreach clinics for sickle cell patients in Orangeburg, Florence and other outlying communities to make access to care more convenient for children and their families. Our psychosocial team helps educate teachers and school nurses about the health challenges faced by students with sickle cell disease.

Our entire team of physicians, nursing, child life, psychosocial and administrative staff is committed to providing the best care. We don't just care for a disease; we care for the whole child and address the needs of the entire family. For more information on the Prisma Health Children's Hospital in the Midlands Center for Cancer and Blood Disorders, call 803-434-3533 or toll free 1-800-775-2287.

Camp Burnt Gin: Camp Burnt Gin, run by the Department of Health and Environmental Control and held in Wedgefield, South Carolina, provides a unique opportunity for our patients with sickle cell disease, hemophilia and other blood disorders to enjoy a week of fun with children just like themselves.

Additional team members: Robin Ohlinger, MSN | Ambulatory Manager, Mary Johnson, PNP, Debbie Disco, PNP, Earleisha Felder, PA, Donna Gallahorn, RN, Katura Simmons, RN, Candace Sona, RN, Marguerite Thomas, RN, Rachel Newkirk | Human Services Coordinator

Contact information:

Phone: 843-876-0444

Brief description of the services provided: The Sickle Cell Center has two components: clinical care and research. Patients of all ages with sickle cell disease receive care at the pediatric sickle cell disease clinic. The clinic is staffed by a multidisciplinary team of pediatric hematologists, hematology nurse specialists and a clinical coordinator. Patient and family education is provided at the time of diagnosis and is incorporated into all clinic visits. Our clinic provides acute care for patients with pain, fever and other complications of sickle cell disease as well as comprehensive, routine care and disease-specific management.

Outpatient and Inpatient Specialty Services: Because sickle cell disease is a complicated condition, we offer a broad range of specialty services to meet the needs of children with the disease. Our patients have access to psychiatrists, general surgeons, orthopaedists, ophthalmologists, kidney doctors, heart doctors and pulmonologists, with expertise in the care of people living with sickle cell disease. All work closely with the Sickle Cell Center team.

Services We Offer:

Preventive care, Transfusion therapy, Hydroxyurea therapy, Care coordination, Acute pain management, Bone marrow transplant, & Research treatment options.

Sickle Cell Conditions We Treat: Sickle Cell Disease, Sickle Cell Anemia, & Sickle Cell Trait Counseling

JAMES R. CLARK MEMORIAL SICKLE CELL FOUNDATION

James R Clark Memorial Sickle Cell Foundation

Address: James R. Clark Memorial Sickle Cell Foundation

1420 Gregg Street Columbia, SC 29201

Contact information: Phone: 803-765-9916, Fax: 803-799-6471

Email: office@jamesrclarksicklecell.org, Website: <http://www.jamesrclarksicklecell.org/>

Brief Description of The Services Provided: The James R. Clark Memorial Sickle Cell Foundation is a non-profit United Way agency serving sickle cell clients and their families in 15 Midland and Upper South Carolina counties.

Services: NEWBORN SCREENING: By State Law, all babies are tested at birth for a variety of genetic traits and disorders, including sickle cell disease, sickle cell trait and their variants.

GENETIC SCREENING AND COUNSELING: Genetic screening involves a special blood test to identify persons possessing certain genotypes that: 1. Are already associated with some form of sickle cell disease or a predisposition to the disease; 2. May lead to the passing of the disease to their children.

NURSE CASE MANAGEMENT: Nursing case management involve the coordination of services to ensure that persons with sickle cell disease and their families have timely access to services. The specific array of services provided by Foundation case managers includes, intake and assessment, service planning, information and referral, monitoring and follow-up. These services are provided by licensed nursing and social work personnel. Please call Yvonne Donald for assistance @ 800-506-1273 or 803-765-9916.

CLIENT, PROFESSIONAL AND COMMUNITY EDUCATION: The Foundation provides education information through health fairs, workshops, and seminars to the community at large, as well Health Education presentation in... Elementary and High School class room settings, In service for Teachers and Nurses, Teacher-Parent consultation, i.e., IEP and 504 Plan, On-going resource for student and family living with Sickle Disease.

ADULT AND PARENT SUPPORT GROUP: The Foundation encourages and facilitates Support group meetings for clients with sickle cell disease.

LITTLE WONDERS (CHILDREN) SUPPORT GROUP: God's Little Wonders Club provides a positive outlet for children with sickle cell disease. Our primary goal is to be responsive to the specific needs and desires of children five through twelve (5-12) years of age.

HOSPITAL VISITATION: Through our in-house hospital and volunteer liaison, once a quarter per client, the Foundation provides visits to give encouragement, gift bags of toiletries and a description of benefits that are offered by the Foundation.

EMERGENCY CLIENT ASSISTANCE: The Foundation provides assistance with their electric bills, water bills, and transportation for doctor office visits and prescription medications pick-up. Clients must be actively enrolled in Nurse Case Management.

BACK TO SCHOOL BASH & THE GIVING TREE: Both projects serve children and their siblings who are affected by sickle cell.

B Strong: THE B STRONG GROUP

We are a 501(c)(3) non-profit organization, supporting the causes that impact those with sickle cell disease.

Educate. Advocate. Empower.

Spreading Awareness of Sickle Cell Disease through Education, Advocacy, and Empowerment

<https://thebstronggroup.org/>

Our Mission. Our Purpose:

We will advocate for sickle cell warriors, help to educate our community about the disease and help empower our warriors and caregivers through sharing their stories and volunteering. We are committed to sharing the importance of blood donation by constantly urging our community to donate blood for our warriors. The need is constant.
