\*\*\* This estimate was suppressed because it did not meet statistical reliability standards; see SC CHAS Technical Notes for more details

<sup>1</sup>Asked of children aged 0 - 17

<sup>2</sup>Use caution in interpreting cell sizes less than 50. N = numerator, % = Percentage, C.I.(95%) = Confidence Interval (at 95 percent probability level). Percentages are weighted to population characteristics and therefore cannot be calculated exactly from the numbers in this table.
