**Growth Potential**

There is a low potential for growth in this watershed, which contains the Town of Sycamore and portions of the Towns of Allendale, Fairfax, and Brunson. Half of Allendale County’s population lives in the Towns of Allendale and Fairfax. US 278 runs between the towns and is projected to support increased commercial growth. Due to growth in the Allendale-Fairfax area, the Town of Allendale’s treatment facility has been expanded and there is a rail line that could support future industry. Allendale

County has adopted a zoning ordinance that includes River and Streamside Management Areas, restricting development within 100 feet of a river and 50 feet from perennial streams, which flow directly into the river.
