The Public notice #14-032-TV-C only addresses Air Quality. it does no consider other issues that will impact on our small community. Additional traffic, HIGHWAY 121 is a route used by trucks as a connector between Interstate 20 and 26. Noise pollution. odors, the location of three school and a church within approx. two miles of this factory. It seems that Environmental Justice should prevail prior to issuing this permit. Thanks Bill Baron 803 275 0577.
