

INTENT TO SOLE SOURCE

The South Carolina Department of Health & Environmental Control (DHEC) is seeking a qualified vendor to conduct a South Carolina dam owner education workshop.

Requirements include but are not limited to: an extensive knowledge of state dam safety laws and regulations; familiarity with emergency action plans related to dam safety; an understanding and ability to describe cost methodology for dam rehabilitation; a knowledge of dam seepage monitoring software; familiarity with animal and plant impact on earthen dams; knowledge of dam inspection methods, designs, and construction related to renovation and repair; and the ability to instruct individuals on all of the above in a group setting, using PowerPoint displays and training manuals created by the vendor.

Qualified vendors should contact E. Madison Winslow at (803) 898-3487 by September 17, 2018, for additional information.
