Re: Request for Extension to Submit Remedial Investigation Report Addendum  
Wix Filtration Corp LLC Plant Site, Dillon  
Voluntary Cleanup Contract No. 13-5996-RP

Dear Mr. Hornosky:

Wix Filtration Corp LLC (Wix) is requesting an extension for the submittal of the Remedial Investigation (RI) Report Addendum to the South Carolina Department of Health and Environmental Control (SCDHEC) for the Wix Plant Site located in Dillon, South Carolina (Site). Based on the revised schedule for supplemental RI activities approved by SCDHEC, this report addendum was to be submitted no later than July 21, 2015. Given the recent issuance of the final vapor intrusion technical guidance by the U.S. Environmental Protection Agency (EPA), Wix believes that additional time is needed to complete the evaluation of sampling data and potential human health risks associated with this exposure pathway inside the manufacturing building at the Site. Correspondence presenting our recommended approach for evaluating the vapor intrusion pathway using the existing data, which is consistent with the new USEPA guidance, will be provided to SCDHEC early next week. Following your review of this information, the Site RI Report Addendum will be submitted no later than three (3) weeks after Wix receives SCDHEC's response to the proposed approach.

If you have any questions concerning the submittal of the RI Report Addendum, please do not hesitate to contact me or Eric Johnson of WSP USA Corp at (703) 709-6500.

Sincerely yours,

Kenny McCutcheon
