RE: Approval of Revised Remedial Investigation Report Addendum dated September 29, 2015

Wix Filtration Corp, LLC  
Site ID# 403139, VCC-13-5996-RP  
Dillon County

Dear Mr. McCutcheon,

The Department has reviewed the above referenced Revised Remedial Investigation Report Addendum (RI Addendum). The RI Addendum was submitted to provide additional data to augment the previously approved Remedial Investigation (RI) Report dated August 21, 2014. The RI Addendum includes additional soil gas data, an Updated Risk Characterization in Appendix D and an Engineering Evaluation of the Existing Air Sparge/Soil Vapor Extraction System in Appendix E. As requested by the Department, your consultant WSP has further revised the Addendum to include the certifications required under Section 3 of voluntary cleanup contract (VCC)-13-5996-RP.

Based on this review, the Department has determined that the Remedial Investigation, RI Report, and RI Addendum are complete. Per the terms of Section 3.C of VCC-13-5996-RP, Wix should prepare and submit a Focused Feasibility Study (FFS) to evaluate remedial alternatives for addressing Contamination at the Site. An FFS Work Plan was conditionally approved by the Department on January 12, 2015, and included a proposed schedule for submittal of the FFS 60 days after completion of the activities covered in the Amendment to the RI Work Plan. The referenced activities have been completed and the Revised RI Report Addendum is approved. The FFS should be submitted to my attention on or before December 21, 2015.

If you have questions, or would like to discuss this project you can reach me at (803) 898-0733, or by email at [hornostr@dhec.sc.gov](mailto:hornostr@dhec.sc.gov)

Regards,

Tim Hornosky, P.G.
