

## NOTICES

### INTENT TO SOLE SOURCE

The South Carolina Department of Health and Environmental Control (DHEC) is seeking qualified vendors to provide equipment, reagents, and consumables necessary for implementing a tandem mass spectrometry method to screen newborns for Pompe, MPS 1 and x-ALD conditions as recommended by the Secretary of the US Department of Health and Human Services. Equipment must be compatible with existing Perkin Elmer Laboratory Information Management System (LIMS), spectrometry bench, microplate incubator, 2-plate evaporator, 110volt air compressor, and Zephyr G3 enclosure. This equipment is to be used in the DHEC Public Health Laboratory.

Qualified vendors should contact Rebecca Nichols at (803) 898-1262 by December 14, 2018 for additional formation.
