INTENT TO SOLE SOURCE

The South Carolina Department of Health & Environmental Control (DHEC) is seeking qualified vendors to provide services for DHEC to participate in a governmental public health department accreditation process. The accreditation process supports the assessment of the health department against nationally adopted standards and measures, based on the 10 essential public health services, to include health and environmental affairs. This accreditation must be supported by the Centers for Disease Control and Prevention (CDC), the Association of State and Territorial Health Officials, and the National Association of City and County Health Officials. Vendor must be able to manage and maintain the entire accreditation process for the South Carolina Department of Health & Environmental Control.

Qualified vendors should contact Rebecca Nichols at (803) 898-1262 by February 27, 2019 for additional formation.
