

NOTICES

INTENT TO SOLE SOURCE

The South Carolina Department of Health & Environmental Control (DHEC) is seeking qualified vendors to provide Illumina Sequencing and Detection Kits using Next Generation DNA Sequencing technologies. Test Kits must be validated for use by CDC for PulseNet developed protocols for whole genome sequencing (WGS) for the Illumina MiSeq™ Next Generation Sequencing instruments. The test kits will be used by DHEC Public Health Laboratory for WGS cluster analysis for outbreak identification.

Qualified vendors should contact Rebecca Nichols at (803) 898-1262 by 5PM, April 5, 2019 for additional formation.
